STATINTL

NOTE FOR THE DDI

Ed:

[] has interviewed several on the list of names you provided for his consideration in filling that very important job of head of the IC Staff Office of Performance Evaluation and Improvement. He has concluded that [] is his man. The assignment of [] is, of course, costly to the Agency; but the ICS task is crucial to the DCI's responsibility in the Community field. It represents an opportunity for [] as well as a challenge of large dimension. I think we should go ahead with the assignment. I can't myself think of a better candidate. The DCI concurs.
